

## What our guests say about us....

My husband and I were looking for a hotel in our area that was family-friendly for a mini-vacation, and WOW! We CERTAINLY found the perfect place! Our stay INCLUDED 4 passes to our choice of attractions in Rochester - we chose the Seneca Park Zoo (an extra savings of \$30!) so we checked in and left for there. We stayed in the family suite, which includes a separate "master bedroom", pull-out couch in the living room, separate TV's, and mini kitchenette (not to mention free Internet access and coffee). It worked perfect for our family of 5! My girls LOVED the pool area and hot tub, as well as the freshly baked cookies that were at the lobby desk! The grown-ups LOVED the free newspaper and "continental" breakfast...this FREE breakfast bar included eggs, sausage, French toast or pancakes and "make-your-own" Belgian waffles in addition to all the normal items: bagels, muffins, juices, coffee cereal, fruit, etc!! AMAZING! All staff treated us like neighbors, and made us feel right at home. We definitely have recommended this hotel to all our friends with young ones. Thanks Country Inn and see you again soon!

Staff was very friendly. Additional special touches such as having juice and nachoes available for the children (and adults) in the evening, and the BBQ on the patio, made for a great experience.

This is a beautiful and cozy hotel and for the most part, the only hotel I care to stay in for my business/leisure needs.

We felt very welcome and at home. That is important especially with a 4 year old! Thank you!

The staff was very helpful concerning directions to various restaurants in the area for lunch and dinner. They were very courteous and friendly. I really appreciate the smoke-free policy of your facility. Thanks
