

Esthetics and Skin Care

Since 1956, Babor has been one of the leading companies in the European therapeutic skin care industry. Dr. Michael Babor, the company's founder, designed his company based on the centuries old practice of homeopathic medicines, herbal mysticism and alchemist superstitions. The following facial ceremonies will contain products formulated by Babor:

Fort Relaxation Facial – This relaxing, stress-releasing facial is the perfect way to unwind and refresh. This facial includes a cleansing and toning of the skin followed by a wonderfully relaxing facial, neck and shoulder massage.

Native Deep Cleansing Facial - A traditionally based deep-cleansing facial customized for your skin type. This facial begins with a gentle cleansing and exfoliation to remove the sluggish skin cells and to expedite new cell growth. This Native facial includes a massage of the face, neck, shoulders, arms and hands.

Gentleman's Facial – Our skin care experts will design a facial for your specific skin type that will assist in reducing irritation caused by shaving or may include a detoxification process to remove toxins built up from excessive traveling or a fitness-related lifestyle.

Acne Facial – Acne is a skin condition that affects those individuals with oily skin and hormone imbalances. Acne results when skin oils accumulate below keratin plugs resulting in a blockage of the hair follicle. Acne generally occurs on the face but can also emerge on the chest, back, neck and shoulders. Any one area may be chosen to treat at your discretion, your therapist may provide assistance if requested.

Change of Life Facial – As a woman enters menopause the hormones estrogen and progesterone fluctuate and begin to decline. At this time in a woman's life the skin requires attention and products that may be different than products used previously addressing the skin's dehydration and decrease of collagen and elastin to decelerate the skin's aging process.

Back Facial – An appropriate mask is selected depending on your individual skin type and needs to ensure the ultimate cleansing of this hard-to-reach area. The mask will draw impurities and toxins out of the epidermis leaving the skin healthier and vibrant.

Amethyst Facial – Amethyst is the 'stone of spirituality and contentment.' Enjoy a luxurious facial which incorporates locally mined amethyst gems from the nearby mountain range of the Four Peaks. It is believed that this stone enhances intuition and helps attune one with their higher self.

Champagne Facial – This treatment includes rare pinot noir grape yeast, the same grape used in the exquisite champagne. This facial will boost your skin's natural defenses and will leave you with radiant looking skin.

Make Up application – Custom chosen colors will be applied on your complexion by your make up artist.

Anti-Aging Facial – This invigorating facial will help combat the signs of aging, including fine lines and wrinkles. Your skin will look younger and more youthful while the products help reverse damaged skin leaving a radiant and balanced complexion. This facial is recommended for those individuals who have experienced sun damage, smoke exposure, drugs, alcohol and other exogenous toxins.

Glycolic Facial – To achieve a healthy, long-lasting glow this facial rejuvenates the skins surface using acids derived from natural products such as grapes, apples and sugar cane. Glycolic acid is a thorough exfoliator that removes the outer layers of the damaged skin leaving a smoother and healthier appearance.
