

## **Beverage & Bar Service Guidelines:**

**Hosted Bar:** Your buying, we will put all drinks ordered on your invoice and bill accordingly.

**Cash Bar or “No Host Bar”:** They’re buying; we will charge your guests for each drink they order.

**Limited Hosted Bar:** First Round(s) on you, we will put the cocktail hour on your invoice and then switch to a cash bar.

**Bar Packages:** We have designed different drink packages based on the number of hours and type of liquor that will be hosted, this is ideal for the group who likes to belly up to the bar.

**Based On Consumption:** An alternate option to a Bar Package, we would keep track of how much your group drinks and add the total to your invoice at the end of the evening, rather than having a pre-determined per person price like the Bar Packages, we would base it on how much is actually consumed.

**Bar Minimum:** For every Bar we set up for your use, there is a \$500.00 Minimum. The Minimum is what we require your event to meet in bar sales. If you’re bar sales do not meet this minimum then there is a \$100.00 bartender fee applied to the host’s bill. If you’re bar sales meet \$500.00, no fee is applied.

Please add 19% service charge and 8.75% sales tax to the above prices  
All prices are subject to change

## **Hosted Beverage Service**

All prices for beverage packages are per person times the total number in your party.

All packages are based on four hours of unlimited service.

Children 4-12 are 50% off, children three and under are free for beverage service.
